2. Introducing.

3. Secretary read the last meeting notes Kyle motioned it first, the, co-chair Mike second the approval of the last meeting minutes.

4. Guest speaker, Rep. Josh Penner, District 31, he introduced himself. He is the mayor of Orting. He has a 15 and 13 years old. The SAIL members ask Rep. Josh Penner questions. Sorry, I had to leave early. I forgot I had an appointment I forgot about.

Sail meeting notes

July 14.2025

Please note that Tracy did the first half, leading to where she left and these are what Kyle took.

We had two guests, one was Courtney Williams, and the other was Representative Josh Penner from the 31st legislative district. We talked about issues regarding housing, and the Community Protection Program, closing down the state-run institutions. The only thing John said on the app was that the transition, and he was against a couple of items, which I did not understand. Otherwise, we talk to other stuff on legislative issues after that. Upcoming workshops that are happening in August and one in September on leadership and the developmental disabilities history and then the other one was group matters or guardianships.

Next week continued with SAIL handbook part two where we went over, abuse, sexual abuse, and other parts the third part will cover the rest of the book and get ready to sign in that you received it in September.

We took a break for 10 minutes

Shawn did a policy report and there was not much report but he is getting ready to do a upcoming workshop and other events. He also is putting together the policies that are folks needed and we're getting ready to meet to go over them and present them to the organization.

The way the organizational tree does is the subcommittee. Does it work like the legislative or Rapid response team will get together and go over legislative happenings, then reported to the main group that goes for all other committees.

Allies and advocacy report, right now they're working on some different issues and what's been happening federally.

PFOW update Corinna said that they are still working on the program administrator and she mentioned that she is applied for it and the date is coming up soon for all applications must be in.

Kyle did the updates regarding the shut them down report and he just mentioned that we

met regarding the caregivers relationship group as well as what we did in our last meeting.

The CEA report was done by Tammy Bowen

The CAC report was done and nothing at this time

The community summit report due to Tracy was not available. It will be reported next time if

We had time for it.

There is a project that was upcoming on Thursday with Representative Farivar.

The Rapid Response team will meet soon and give a report out until September's meeting

Then there was a survey put out, which happens every month, and reminds her to please do

it so they can see how things are going.

Getting Healthy with Sandy was summer fun and summer foods that you can eat, like salads, etc., and she gave some ideas on what kind of salads she makes for herself as

As well as Shawn.

The meeting was closed around 4 PM

These meeting notes were taken by Kyle for Tracy

That second half of the parts after she left
